

**UNION COUNTY CONSERVATION DISTRICT**  
**Erosion & Sediment Pollution Control Plan Review**  
**Fee Schedule**

The following fees will be charged by the Union County Conservation District for Erosion and Sediment Pollution Control Plan (“E&S Plan”) reviews as authorized by Act 217–The Conservation District Law. Applications will not be accepted for review without the appropriate fee(s), completed application form, and required plan.

**This fee schedule is effective June 1, 2023.**

I. Types of projects requiring an E&S Plan, along with respective categories (examples only):

Single-family home	Residential
Garage/addition	Residential
Shed	Residential
Barn (<1 ac disturbance)	Residential
Soil "waste" area	Residential or Commercial
Apartment building	Commercial
Poultry house (>1 ac disturbance)	Commercial
Utility project (multi-lot)	Commercial
Timber harvesting	Commercial
Solar array field	Energy Harvesting
Geothermal well field	Energy Harvesting
Oil/gas field	Energy Harvesting

II. The Bureau of Clean Water administers the statewide E&S program under 25 PA Code Chapter 102. Chapter 102 incorporates the National Pollutant Discharge Elimination System (NPDES) and requires a permit from DEP for the following activities:

1. Construction activities with earth disturbances greater than or equal to one acre (not including agricultural plowing or tilling, animal heavy use areas, timber harvesting activities or road maintenance activities) require NPDES permit coverage. If eligible, persons disturbing one or more acres may apply for coverage under the PAG-01 NPDES General Permit for Discharges of Stormwater Associated with Small Construction Activities or PAG-02 NPDES General Permit for Discharges of Stormwater Associated with Construction Activities.
2. If ineligible for PAG-01 or PAG-02 coverage, persons may apply for an Individual NPDES permit using the Individual NPDES Permit Application for Discharges of Stormwater Associated with Construction Activities. In Union County, most commonly, an Individual NPDES Permit is required for projects in High Quality or Exceptional Value watersheds.
3. Timber harvesting and road maintenance activities involving 25 or more acres of earth disturbance. An E&S Permit is required under Pennsylvania's Clean Streams Law for these activities, rather than a NPDES permit.
4. Additional permits are available to cover oil/gas activities or earth disturbance activities that do not fall into one of the preceding categories.
