

Inclement Weather Information

During inclement weather, it is the general policy of the Union County Commissioners to observe regular work hours of Union County Operations. Under most circumstances the county will function even with a skeletal force. The public and county employees may call this number to obtain County operational schedule information.

If a delay or closing is warranted, that information will be disseminated as follows:

- 1. A voice mail message will be placed on (570) 524-8699 by 6:00 am and 12:00 noon. Whenever possible significant weather information will be included.**

County Employees:

Delays and/or closings apply only to offices, which are not 24-hour operations. In 24-hour departments, normal operations must be maintained and the Elected/Department Official is responsible for ensuring proper staffing during adverse weather conditions.
